

TECIDO CREPE

ESPECIFICAÇÃO

Composição 100% Poliéster
Largura 1,40m aproximadamente 5%

PERFORMANCE

Flamabilidade NBR 9442/1986
DIN 75200/80
Classificação 5
Anti-chamas (fogo retardante)

Solidez à luz 200 Horas Fade-o-Meter
DIN 5400/89 Xenotest

Limpeza dos tecidos

- A limpeza dos estofados deve ser feita com escova de cerdas macias ou aspirador de pó em baixa rotação. Não utilizar produtos pontiagudos ou abrasivos como palha de aço ou solventes químicos. A utilização de limpeza a vapor poderá ocasionar mofo.
- Para remoção de manchas recomenda-se tirar o excesso com um papel ou pano branco absorvente, em seguida aplicar um pouco de detergente neutro diluído em água diretamente na mancha e esfregar levemente com pano branco até a completa remoção da mancha.
- Observação: Antes de utilizar a solução citada, aplique-a sobre uma parte não visível do tecido, verificando se o mesmo sofre alterações com a solução.

TECIDO KROYAL

ESPECIFICAÇÃO

Composição Composto vinílico, poliéster e algodão.
Largura 1,38m aproximadamente 5%

Limpeza do couro ecológico

- Utilizar pano macio levemente umedecido com água e detergente neutro. Não utilizar produtos químicos ou abrasivos, pois poderão ressecar e danificar o material.

TECIDO LINHO

ESPECIFICAÇÃO

Composição Composto vinílico, poliéster e algodão.
Largura 1,40m aproximadamente 5%
